Brief Introduction of China Sourcing Summit

ChinaSourcing Summit (hereinafter referred to as “the Summit”), co-sponsored by the Ministry of Commerce, the Ministry of Education, the Ministry of Science and Technology and the Ministry of Industry and Information Technology of the People’s Republic of China and organized by China Council for International Investment Promotion (hereinafter referred to as CCIIP), is targeted to evolve into a major outsourcing trading platform in Asian regions.

The host city of the Summit is chosen from the 21 outsourcing demonstration cities of China based on the applications from the local departments of commerce. Having been held once in Chengdu and three times in Hangzhou, the Summit plays an active role in pooling outsourcing resources in both China and foreign countries, strengthening the communication and cooperation between outsourcing service providers and buyers from home and abroad, promoting the national brand of “ChinaSourcing”, etc., and has become more and more influential in the outsourcing sector.

The Summit, now in its fifth year, will be held from July 3 to 5, 2013 in Hangzhou, Zhejiang Province. In an effort to make it a more international and more professional event, CCIIP will employ the mode of “cooperation by section” to collaborate with companies or organizations like Gartner, Ernst & Young, Accenture, TPI, Princeton Healthcare Alliance, Genpact, Capgemini, China IT Services Innovation Alliance, China National Human Resources Institute for Service Outsourcing, etc., aiming to maximize the integration of resources from all parties. In addition to the summit forum, there will be different sessions respectively on shared service center, CIO, business model innovation in healthcare, financial service, manufacturing service outsourcing, technological innovation, human resource and other topics. Furthermore, to apply the practical needs of buyers and service providers, the Summit will also offer such activities as policies illustration meeting, seminar on financing strategies of service providers, analyst workshop and one-to-one meeting.
